

"AN EVIL COMPROMISE"

(BY FRANK H. SIMONIS)

(Copyright, by McClure Syndicate)
The compromise from Paris that the Balkan dispute is approaching a settlement and the terms which are being discussed indicate that we are to have one more of those evil compromises of which there have been so many in the past months. As usual this is the result of an effort to satisfy a portion of the claims of the contestants, for both of whom the

acquisition of a part will prove but an incentive for further effort to get the territory involved in the present dispute is practically all that was lost in the Balkan War, after the Balkan War, save that area reserved for an internationalized Constantinople, provided such a state shall presently be created. Roughly speaking it may be described as the shores of the Black and Aegean Interopling between Bulgaria and the two seas.

Historically this territory was Greek in the classical times, that is to say it was a field of Hellenic colonization and culture. It was long held by the Byzantine Empire and only fell to the Turks in the fourteenth century. Thereafter it preserved its Greek character, but was partially colonized by Turks, and the surrounding country still have a larger Greek than Bulgarian population.

In the first Balkan war it was captured by Bulgarian armies which fought their victorious battle of Lule Burgas between Adrianople and the Chirakia lines. Immediately covering Constantinople. In the first treaty which was made at London, and designed to settle the Balkan disputes Bulgaria acquired Adrianople and all of Thrace down to the famous line-Midye, the Black sea, at those points. In addition Bulgaria acquired all of western Thrace, including Kavala, as far as the Struma river, Greece occupied

In this settlement despite the fact that the Turkish people, so far as it was concerned, was not satisfied. The Bulgarians were not satisfied and in June, 1913, she attacked both her Greek and Serb allies treacherously with the purpose of taking the Balkan peninsula and Macedonia assigned to Serbia. She was successful in this wholly unprovoked and as a result was forced by the Treaty of Bucharest to give up Kavala to the Greeks, while

the Turks took Adrianople. Now it is essential to recall this circumstance because the argument is advanced, mainly by American representatives, that the Bulgarians must have part of Thrace, as based on the assumption that if this is not assigned to them, there will be another Balkan war. Yet when Bulgaria had with the consent of the Serbs and the Greeks and the forest ascent of the Turks, not merely the territory now in question, but much more, when she

had the two Aegean ports of Dedeagatch and Kavala, which were aimed at extending and Kavala, only the former of which is now under dispute, the latter, Dedeagatch, was a Bulgarian war. Further than this, when at Bucharest, it is absolutely no question to the present, despite her unprovoked attack upon Greece, she was still permitted to retain Dedeagatch, the again attacked, this time Bulgaria and invaded Greece, this time she was the beneficiary of certain Greek garrisons. Again she was the beneficiary of certain Greek garrisons, but not until she had once been gully of unprovoked

It will be seen therefore that there is no question to the present, despite her unprovoked attack upon Greece, she was still permitted to retain Dedeagatch, the again attacked, this time Bulgaria and invaded Greece, this time she was the beneficiary of certain Greek garrisons. Again she was the beneficiary of certain Greek garrisons, but not until she had once been gully of unprovoked

MONTENEGRO IN THROES OF BLOODY REVOLUTION

STRIKERS ON PACIFIC COAST ORDERED BACK BY CHIEFS

WASHINGTON, D. C., August 28.—Sunday morning has been set as the time limit by which all striking railroad employees on the Pacific coast must return to work or the brotherhoods will support the federal administration in its endeavor to operate lines wherever they have control.

This ultimatum was sent today from the Cleveland headquarters of the four brotherhoods to the strikers and was communicated also to the railroad administration, which is understood to have completed plans for resuming the service if the unauthorized strike is deemed as illegal by the international officers of the brotherhoods, is threatened.

It is understood that union men will be employed in moving freights if the strikers do not return to work.

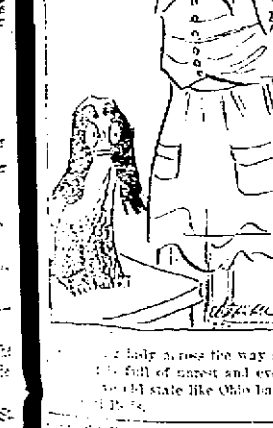

SAN FRANCISCO, CAL., August 28.—A strike of yard switchmen of the Great Transcontinental Lines has ended in Oakland, California, and strikers were leaving on normal schedules there, but the strike continued here, although most of the lines were being dispatched out, officials of the United States railroad administration announced here today.

SAN FRANCISCO, CAL., Aug. 28.—The strike of yard switchmen of the Great Transcontinental Lines has ended in Oakland, California, and strikers were leaving on normal schedules there, but the strike continued here, although most of the lines were being dispatched out, officials of the United States railroad administration announced here today.

At Portland and Sacramento, where the strikers of yard employees had refused to return to work, conditions were something of a normal one.

MUSKIE SITUATION IMPROVES
MUSKIE, Wednesday, Aug. 27.—Reports show that the situation in Muskogee is much improved, from 75 per cent of the miners who have returned to work.

George M. Cohan, formerly an actor but more lately a manager, has organized a new union of actors which will fight the Actors' Equity association, now on strike in New York. Cohan's union is opposed to joining the American Federation of Labor. Among the

members of his organization are the old timers David Warfield and Amelia Bingham and such famous

stage beauties of the younger generation as Fay Bainter, Leonore Ulrich and Justine Johnston.

MANY BEQUESTS MADE IN WILL OF ANDREW CARNEGIE; ESTATE OVER 25 MILLION

NEW YORK, August 28.—The will of Andrew Carnegie made public today, estimates the value of the iron master's estate at between \$25,000,000 and \$30,000,000.

The will leaves the real estate and all the works of art and household goods to Mrs. Carnegie. The financial provision for Mrs. Carnegie and her daughter, Mrs. Miller, was made during Mr. Carnegie's life time. A statement issued by Edwin Root, Jr., says that Mr. Carnegie's public gifts and charities during his life time exceeded \$10,000,000.

The fourth article of the will contains a series of legacies to charitable institutions, while the fifth article contains annuities to relatives and friends.

Public legacies include Cooper Union, New York, \$50,000; Pittsburgh University, \$200,000; relief fund of the Authors Club of New York, \$250,000; Hampton Institute, Virginia, \$100,000; Stevens Institute, Hoboken, N. J., \$100,000; St. Andrew's Society of New York, \$100,000.

NEW CABINET FOR HUNGARY
PARIS, August 28.—Stephen Friedrich, Hungarian premier under Archduke Joseph's regime, has formed a new cabinet for Hungary in which, besides the premier, he has assumed the post of minister of the interior, according to a Hapsburg dispatch from Budapest today.

MISSIONARY'S APPEAL GRANTED
SEOUL, KOREA, Tuesday, August 28.—(By The Associated Press)—The appeal of Rev. Eli Meary, of Mansfield, Ohio, a Presbyterian missionary, who was convicted last April of seducing Korean natives during the war in this country, has been granted by the supreme court. This court quashed the original judgment in the case and remanded the missionary for a re-trial before the court of appeals.

WHO WANTS A WARSHIP? HERE'S CHANCE TO BUY ONE

WASHINGTON, Aug. 28.—More than 100 naval vessels of widely diversified types, including seven old type gunboats, several converted yachts, one monitor, a tug and about 100 standardized submarine chasers, will be offered for sale to the highest bidder in the near future, the navy department today announced. Among the vessels to be sold are several historic ships, including the gunboats Essex, Yantic, Gopher, Sumner and Princeton, the frigate Albatross and the last two Spanish-American war prizes, the Monitor Amphitrite and the converted yacht Eagle and Walrus.

Wilson To Start Trip Wednesday

WASHINGTON, Aug. 28.—President Wilson will leave Washington next Wednesday on his speaking tour in the interest of the peace treaty, and will deliver his first address in Columbus, Ohio, next Thursday, probably in the evening.

Cincinnati is not included in the itinerary, but Secretary Tamm announced the president would speak at Indianapolis.

Accompanying the president will be Mrs. Wilson, Admiral Cary T. Grayson, Secretary Tamm and a corps of secretaries and stenographers.

Among other places at which the president will speak will be Denver and Coeur d'Alene, Idaho.

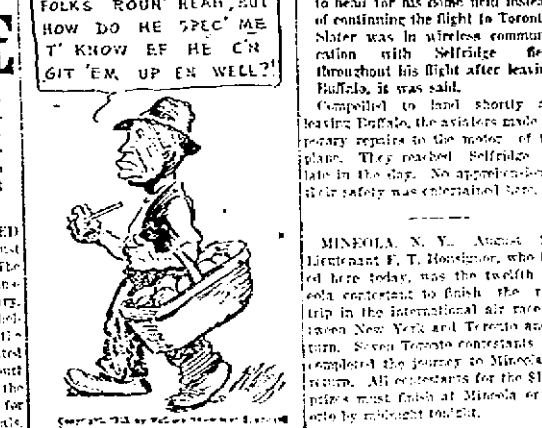

In California, the home state of Senator Johnson, one of the leading Republican opponents of the peace treaty, the president will make the speeches.

At Los Angeles, San Francisco and San Diego, his only address in Oregon will be at Portland, while he also will speak at Spokane, Washington, and possibly Seattle.

BUILDING TRADES MEN ON STRIKE
CHICAGO, Aug. 28.—Expectation that 110,000 building trades workmen would return to work today was dashed by the announcement of the Carpenter's District Council that the men had voted to reject the 32 cents an hour offered by the employers, to remain firm for \$1 an hour.

TOLEDO FIRM SELLS
TOLEDO, O., Aug. 28.—Sale of the Metzger Steel and Oil Company of Toledo, to the Midland Oil Products Company, of Minneapolis, for \$250,000, was announced today by officials of the local concern. The new company plans to expand the business here to an extent that will make Toledo an important center for the manufacture of oil and oil products.

FIGHTING BREAKS OUT EVERYWHERE; SERBIANS TRY TO QUELL REVOLT

LONDON, Aug. 28.—Fighting has broken out everywhere in Montenegro and the whole country is in a state of revolution, according to news received here. The Serbians are using strong measures in an attempt to suppress the uprising.

It is said to be in for a reversion of the Balkan trouble, was a statement made to the Associated Press today from an authoritative source.

The Montenegrins have cut the railway between Vukovar and Antivari, on the coast.

The Serbians are receiving reinforcements, but are not meeting with success in their efforts to put down the revolutionary movement, according to the cables, which represent the Montenegrin national spirit as thoroughly aroused and the animosity of the people against the Serbians increasing.

The uprising in Montenegro seems that a majority of the Montenegrins favor the union. The question of the nationalist party in Montenegro, however, is that the Montenegrin national assembly has been "suspended" with pro-Serbian, making the action of that body in voting last April for admission to the Jugoslav state not truly representative of Montenegrin opinion.

Disorders broke out in Montenegro early in July against what was characterized as "Serbian military occupation" and guerrilla warfare was reported to be reviving in the mountain regions.

PREMIER SUCCUMBS

PRETORIA, UNION OF SOUTH AFRICA, August 28.—General Louis Botha, premier and minister of agriculture of the Union of South Africa, died suddenly early this morning, following an attack of influenza.

General Botha was born at Greytown, Natal, in 1862, and was a member of the first Volksraad of Transvaal, in which he represented the district of Vryheid. At the beginning of the war, in 1899, he was elected to the Union of South Africa.

Following the peace negotiations between the Boers and the British, General Botha took a leading role in the period of reconstruction. After the grant of self government to the Transvaal in 1907, General Botha was called upon to form a government. From this position he resigned in December, 1912, owing to dissension in the cabinet but was immediately asked to form a new government.

At the outbreak of the great war in 1914, General Botha took command of the Union forces in southwest Africa, relieving a complete success and compelling the German troops in that region to surrender. With General Jan Christian Smuts, General Botha signed the peace treaty with Germany on behalf of the Union of South Africa, June 28, 1919.

PROGRESS IN THE FIGHT ON HIGH PRICES
WASHINGTON, Aug. 28.—Better definite progress in the government campaign against the high cost of living is expressed by Attorney General Palmer in announcing that the department of justice is meeting with success in obtaining from shoe manufacturers promises as to fixing a maximum price on shoes.

With reports to the department indicating that a slight downward trend in prices already has set in, although it is not yet sufficient to be reflected in spot purchases on the retail market, Mr. Palmer declared that given a fair chance efforts of the government to squeeze the inflation out of prices soon will show substantial results. Expressing satisfaction with the success so far attained, the attorney general said he believed cumulative results will follow enactment by congress or amendment to the food control law providing penalties for profiteers and hoarders.

Efforts of retail merchants to stimulate buying by predicting higher prices next season were commended by Mr. Palmer, who warned the public not to be stampeded by this propaganda into a "buying hysteria."

N. & W. Men Injured

J. D. McConnell, roadmaster of this division of the N. & W., and C. E. Armstrong, division engineer, with others in the First National bank building, were severely injured Wednesday afternoon at 3:15 o'clock, when a motor car on which they were riding in the city jumped the track.

They were thrown headlong from the car while it was traveling at the rate of probably 20 miles an hour. Mr. McConnell was bruised about the back, head and shoulders, and his right ankle was sprained. Mr. Armstrong was bruised about the back, but not seriously.

One of the pistons on the engine broke and this caused it to clog, and it left the rails and plunged down a small embankment. Mr. McConnell and Mr. Armstrong were brought to this city in an ambulance. It was first thought they had been seriously hurt.

C. & O. Shops Say They Will Strike Unless Given Their Original Demands

The Ashland Independent Wednesday evening said: "That the local C. & O. railway shopmen will strike on September 2nd unless the original demand for wages is granted is a certainty. Although they have not received anything official from headquarters, the shopmen stated this morning that they would not accept any wages except their original demand."

At all other places the shopmen are determined to stand for what they consider their rights and to remain firm in their rejection of any offer except what is considered by them a fair demand for an increase of from 10 to 25 cents on the hour.

The men have all been working and will continue their work until the time for the strike to become effective.

IT WILL APPEAR IN SUNDAY'S TIMES

Did you ever hear of anyone being severely bitten by mosquitoes while driving or walking between Portsmouth and Chillicothe?

Thomas Ashe in writing of his trip from Portsmouth to Chillicothe said that he was so distracted with the insects that he was glad when he arrived in Chillicothe and could rest from the stings.

Of course this was in the summer of 1907 when Thomas Ashe traveled through this part of the country. He published a story of his journeyings through here in London in 1907. Among other things of interest he describes the lives of the people of Green township, tells how the people at Haverhill gave a dance in his honor, an out-of-door affair on the banks of the Ohio. "The old men in large red hats, the women in the styles of Louis XIV." He visited Alexandria and Portsmouth in those far away times. It is an attractive picture of the life of the Ohio. An excerpt from the book will be published in next Sunday's paper. Don't miss it.

FACES CHARGE OF MURDER

COLEDO, O., Aug. 28—Charged with the murder of a grocer at Laporte, Indiana, last Christmas eve, Walter G. Baker was returned to that city today. He is said to have been one of three men who entered the grocery store of Carl Cook, with robbery as the motive, and shot and killed the proprietor. Police here say Baker also is wanted for an alleged attempted bank robbery at Lockport, Illinois. Baker's bride of a few months accompanied him to Laporte.

Henry B. Hallowell

Henry B. Hallowell, eighty years old, claims to be the oldest marine in the U. S. He called at the White House the other day to pay his respects to the president. In 1860 Hallowell was an orderly at the White House, and he is the last of the marines stationed at the executive mansion during the Buchanan administration. It is his first visit to the White House in fifty-seven years, for at the close of the Civil war he migrated west and now makes his home at McPherson, Kansas.

Mystery In Fear of Snakes

Why snakes are so universally feared and killed is an absorbing question. The theory that the fear is of an instinctive and hereditary nature is hardly tenable; the tendency of young children to play with a brightly colored snake is strong evidence against it. Considering the fear as proof of the literal correctness of the biblical story may appeal to some, but it is vague at best.

State Examiner's Report On Service Department Continued

The following is another installment of the state examiner's report on service department. Other installments will continue in The Times from day to day.

"SECURITY BANK SEWER"

March 27 and April 3, 1918, advertisement was had in the Portsmouth Daily Times for bids to be received April 11, 1918, for the construction of a storm water and sanitary sewer in Gullia street from Gay street west to Security Bank. From said advertisement no bids were received.

The advertisement was had in accordance with the provisions of ordinance No. 2469, passed December 5, 1917, through which there was appropriated \$45,000 for the construction of said sewer and the director of service was authorized and directed to enter into a contract in accordance with law and the plans, specifications and estimates. The ordinance granting such authority was made an emergency measure.

April 15, 1918, four days subsequent to the date on which bids were to be received, the director of service entered into a written contract with Kelley Bros. for the construction of said sewer at the engineer's estimated cost, viz: \$24,800.

The sewer was constructed by Kelley Bros., and in accordance with said contract, they were paid April 30, 1918, through warrant No. 1313, \$24,800, being the price less 5 per cent. retainer of \$23,400.

The minutes of the director fail to disclose any action taken by him in relation to the entering into of said contract with Kelley Bros.

It is stated both by the director of service and the engineer, that George D. Selby, president of the Security Bank, agreed that the cost of said sewer in excess of the engineer's estimate would be assumed by him, and, as per the statement of said officials, the contractor did receive a certain amount as per said agreement.

The provisions of Section 4228, General Code, are clear, and under no conditions may they be subverted by the director of service. If it were evident that the improvement could not be made for the amount as estimated by the engineer and as appropriated by council then it was clearly the duty of the director to so inform the council in order that a proper amount might have been appropriated under a revised estimate of the engineer. Inasmuch as this course was not pursued and the law was not observed in the entering into of the contract it becomes necessary to render a finding against Kelley Bros. as an illegal payment, in the amount of \$24,800, the amount paid through warrant No. 1313.

August 9, 1918, a contract was entered into with A. R. Miller Construction Co., for the construction of a sanitary sewer, known as the Hill Top sewer. Sometime subsequent to the entering into of said contract it was assigned, by the consent of the city, to Harold W. Wendelken, a partner of A. R. Miller Construction Company. Based upon the preliminary quantities as estimated by the engineer, and the unit prices of the proposal of said company, the contract price of said sewer construction was \$35,742.00; in addition to said cost, was that provided for in a separate contract for relaying of the pavement, the same aggregating \$2,000.00. At the time of the audit there had been paid the contractor, through 36 estimates, the sum of \$37,742.00; the 36th estimate rendered November 17, 1917, and paid November 10, 1917. The work on said sewer improvement had not been completed at the time of the audit, and final estimate had not been rendered.

If there is any work connected with said sewer construction that is not provided for through the original contract there should be no failure to provide for same through proper supplemental contract, before said work is done, in order that there may be no question arise as to the regularity of procedure. In this connection we wish to emphasize that all work done outside the regular contract must be provided for through supplemental contract before the work is done.

As per the terms of the contracts for sewer construction, there is retained for a period of one year 2 per cent. of the amount of the final cost, as disclosed by the final estimate, said amount being retained for the purpose of indemnifying the city against faulty construction.

Aside from the above the same conditions apply as to the contracts for sewer construction as heretofore set forth under the subheading "Street Paving". At the time of the audit the following retainers had not been paid:

Contractor	Amount	Retainer	Date Paid
Kelley Bros. Gullia St. from Gay St. to Security Bank	\$24,800	May 1, 1918	May 1, 1918
Chas. P. Stumm, Alley E. of Jefferson St. and S. of 3rd St.	10,000	Aug. 20, 1918	Aug. 20, 1918
Chas. P. Stumm, Alley E. of Sinton St., Green Alley S. to 4th St.	11,450	Apr. 12, 1919	Apr. 12, 1919

During the period audited a number of retainers were paid on contracts executed during 1918.

In this connection we would advise that ALL estimates rendered in detail as to quantities and prices. This is essential in order that they may be properly verified.

ENGINEERING SERVICE NOT PROVIDED FOR BY ORDINANCE OF COUNCIL

The vouchers in file with the city auditor disclosed the following payments from the sewer construction fund for the services of rodmen:

Date Paid	Employee	For What	Warrant	Amount
Mar. 31, 1917	Robert C. Connell	March salary as rodman	5500	\$50.00
April 30, 1917	Robert C. Connell	April salary as rodman	3833	50.00
May 31, 1917	Robert C. Connell	May salary as rodman	1-21 4035	33.57

Total Paid Robert C. Connell \$133.57

Date Paid	Employee	For What	Warrant	Amount
June 30, 1917	Stewart Little	June salary as rodman	4235	\$50.00
July 31, 1917	Stewart Little	July salary as rodman	4421	50.00

Total Paid Stewart Little \$100.00

Date Paid	Employee	For What	Warrant	Amount
Aug. 31, 1917	George Holcomb	August salary as rodman	4630	\$50.00
Sept. 30, 1917	George Holcomb	September salary as rodman	4815	50.00
Oct. 31, 1917	George Holcomb	October salary as rodman	74	50.00

Total paid George Holcomb \$150.00

Date Paid	Employee	For What	Warrant	Amount
Nov. 30, 1917	Harry Rea	salary as rodman, Aug. 25-31	4050	\$ 6.48
Dec. 31, 1917	Harry Rea	September salary as rodman	4815	50.00
Jan. 31, 1918	Harry Rea	October salary as rodman	74	50.00

Total paid Harry Rea \$106.48

February 21, 1918, the council through Section 1 of ordinance No. 1911, provided for the compensation of draftsmen at \$720.00 per annum, and reduction of \$200.00 per annum. This ordinance remained in force and effect until September 6, 1916, when council through ordinance No. 2322 repealed Section 1 of ordinance No. 1738, and provided, through Section 1 of ordinance No. 2322 for the compensation of a chief engineer and an assistant engineer only. Hence, on and after October 6, 1916, the date ordinance No. 2322 became effective, there was no provision for the compensation of draftsmen and rodmen in the engineering department.

Section 4214, General Code, provides in part: "Except as otherwise provided in this title, council, by ordinance or resolution, shall determine the number of officers, clerks and employees in each department of the city government, and shall fix by ordinance or resolution their respective salaries and compensation."

In State, ex rel. vs. Lathschuets, 10 N. E. (N. S.) 257; 20 Dec. 20, held: "Director of public service has no power to fix the salaries and emoluments in the department, but these are fixed by council."

Under the law as interpreted by the court the director of service has no authority to fix the compensation or salary of any employee in the service department.

The courts have held in relation to the performance of service for which provision has been made by statute or ordinance, as follows:

"There are no fees or salaries attached to an office except such as are prescribed by statute or ordinance. If no fees or salary have been fixed, the person filling the office cannot claim compensation, even his services were rendered at the request of a superior."

"Provisions for compensation of public officials are strictly construed and compensation is allowed only when clearly expressed."

"If paid for services where no compensation is provided for the office, the money paid may be recovered."

In view of the fact that no compensation was fixed by council for the services of draftsmen and rodmen, and in view of the law and the interpretation of the courts, a finding for recovery is herewith rendered in favor of the City of Portsmouth, against Robert C. Connell, in the amount of \$133.57; Stewart Little, \$100.00; Geo. Holcomb, \$150.00, and Harry Rea, \$106.48, the director of service being joined in said findings.

The foregoing service was rendered in connection with the construction of the Hill Top Sewer.

Ward's ORANGE-CRUSH

WHEN your parched throat calls for coldness—say **Orange-Crush**.

When your palate seeks a new sensation—say **Orange-Crush**.

Orange-Crush is a sparkling, icy cold drink—delicious, refreshing. You can be sure of its purity because it is made from the fruit oil pressed from fresh, ripe oranges and such other wholesome ingredients as pure granulated sugar, carbonated water and citric acid, which is a natural acid found in oranges, lemons and grapefruit.

Orange-Crush makes a delightful flavor for ice cream sodas, sundaes and malted milk. Always order it by the full name—**Orange-Crush**.

Try a drink to-day!

Wheatley Is Released

Jesse Wheatley, Ashland man, who was arrested and brought here a week ago on a charge of failing to provide for his illegitimate child gained his release by promising to make weekly payments for the support of the child and giving bond for faithful compliance. The complainant in the case was Lilian Knickerbocker of Twelfth street.

For Skin Made Flabby and Wrinkled by Heat

Hot, windy and flying dust often cause sagging and other conditions which make wrinkles. You can quickly get rid of every line, however caused, by using a harmless wash lotion made by dissolving an ounce of powdered flaxseed in a half pint of cold water. The flaxseed oil of course is not at any true store. When dissolved by the heat and you want to freshen up quickly for the afternoon or evening, bathe the face for a few moments in the flaxseed lotion. You'll find this most refreshing than an hour's rest. It is fine for removing that appearance of flabbiness so common in hot weather.

Noted To Portsmouth

Identify Automobile Accident Victim As Portsmouth Girl

Father Bringing Back Body To This City

The young woman who was killed in an automobile accident at Columbus, Wednesday morning was today positively identified as Grace B. Raik, 19, former school teacher of Portsmouth, and daughter of Mr. and Mrs. John M. Raik, 2131 Seventh street, this city. Relatives of the dead girl went to Columbus Thursday and are expected to accompany her body to Portsmouth this evening.

The first word that the Raik family had of the accident was a message carried in last night's Times, which stated that the name of the victim was "Grace Tumbleson," and which led them to make an investigation from the fact that they have a married daughter named Lucile Tumbleson, who was recently at Columbus with Miss Raik. They also recognized the names of others connected with the auto accident.

The fatal accident occurred on Broad street six miles out of Columbus and resulted from the automobile going into a ditch. Miss Raik and

Fisher's morgue. Grace Raik was 19 years of age and is one of a family of 8 children of Mr. and Mrs. John Raik, 2131 Seventh street. The father is employed as a chairman by the Portsmouth Street Railway and Light Co. Previous to going to Columbus three months ago the girl had worked at the Selby and Drew shoe factories. She was home a month ago when a young brother was severely hurt in an accident.

AN EVIL COMPROMISE

(Continued From Page One)

hold Dedagatch, she made a second attack. What Bulgaria seeks is all of Macedonia and Salonica. It was to acquire these that she has fought three wars, with Turkey in 1912, with Greece and Serbia in 1913, and finally as a German ally in the recent world war.

It is now proposed to give Greece much of the contested territory, but to cut Greek territory in half by a neutral strip descending the west bank of the Moritza to Dedagatch. This is to be placed under the control of the League of Nations. But this strip means that if the League of Nations does not partition the strip, or if Azerbaijan, Belghia and French troops are not sent there, or if after a time the several Great Powers weary of the thankless task, then the strip will be the immediate cause of a new war between Greece and Bulgaria.

This compromise is justified by the argument that Bulgaria must have an outlet upon the Black sea; with Constantinople internationalized, all the old difficulties due to Turkish policy disappear. Moreover Dedagatch is only an open roadstead, incapable, given Bulgarian finances, of improvement.

The trouble with American policy here, as elsewhere, is that it is based upon the assumption that to deal generously with an enemy will make him a friend, no matter who that enemy may be or what his purposes. But in the case of Bulgaria we have had three perfect illustrations within five or six years of the folly of such an assumption. Three times he has been allowed to hold country much larger in area than is now offered as a son and three times he has attacked his neighbors, still his allies in the first case, with absolute treachery.

As the result of our championship of the Bulgarians we have forced the Greeks to submit to Italian blackmail and agree to recognize Italian claims to regions in Asia Minor in which there is not an Italian and to which the Greek claim is incontestable, if the Turk is to be deprived of his sovereignty. At this price the Italians have changed front and agreed to support Greek claims in Thrace, but still American opposition continues and seems to be about to lead to a compromise, which can have no other consequence

than to foment Balkan rivalries and precipitate new Balkan wars. Why American policy at Paris is resolved to sacrifice the Greeks to the Bulgarians and the Romanians to the Hungarians passes all comprehension, since both races have been guilty of more offenses against the principles of justice than the very Germans themselves and have been the enemies of our allies in a recent war. The proposed compromise, is then, an evil thing in itself, doubly evil, because it figures a friendly nation to placate a people which will never be satisfied, as every one who knows the Near East will agree, until it has reconquered Salonica and Monastir, as well as Adrianople and Kavala. Giving a wolf a crust of bread to make a lamb of him, is enlightened policy by comparison with feeding a few Greeks in Thrace to the Bulgarian in the hope of making him a consenting subscriber to the principles of the League of Nations.

College Opens September 2

St. John's Business College will open its doors, September second, to the aspiring energetic young people of the community who are alive to the opportunities of the day. This splendidly equipped school has made a reputation for itself by putting out into the Commercial world

some of the most successful bookkeepers, stenographers and typists in the country. There is a crying need at the present time for the trained business man and woman. Anyone desiring the advantage of such a course may make arrangements with the principal, Sister Mary John, at Holy Redeemer School.

Trainmen To Stand Pat

COLUMBUS, O., Aug. 28.—Scott Weeks, leader of the late unauthorized strike of Columbus railway shopmen, said today they will stand pat for their increased demands, in spite of the President's position. There will not be another strike except on orders from the headquarters of the union of trainmen. They have no idea of accepting this compromise. Sentiment, tested at other points shows mixed results. In Columbus many of the Pennsylvania men want to remain at work.

Asks For Divorce
Declaring that her husband has neglected his home after becoming infatuated with one Maudie Brown, Purice Cecil filed suit for alimony, the custody of her fifteen year old daughter and equitable relief through her attorney, O. F. Kimble against William F. Cecil. Mrs. Cecil charges her husband with giving his time and money to the other woman, treating her with utter disregard, indifference and coldness. She also states that on August 11, 1919, he abandoned her and child, making no provision for their support, and that he cursed, abused and torments her with vile names. The couple were married on July 21, 1903, and have but one child. Mrs. Cecil does not ask for a divorce.

At State Fair
Miss Scott (Clar) deputy to the clerk of common pleas court, is at Columbus, attending the State Fair.

Mexican Congress Out Of Step

WASHINGTON, D. C., August 28.—Attaches reaching Washington through official channels indicate that the recent activities of Luis Cabrera, secretary of the treasury of Mexico, and Schellfina, head of the petroleum bureau of the department of industry, commerce and labor, have been for the purpose of bringing back into line the Mexican congress and members of the supreme court, who, it is indicated, are somewhat out of step with the Carranza regime.

Cabrera urged the supreme court not to hasten the hearing of the Am. cases brought before the court by the American oil companies. The cases are aimed directly at the presidential decrees which led the United States, British, Dutch and French governments to file vigorous protests because they were regarded as an interference with the property of the United States.

It now is apparent, according to officials from Mexico City, that there is a definite effort in progress to withdraw from Carranza the extraordinary powers in finance under which he issued the "speculation" decrees. It is pointed out by anti Carranza leaders in congress that the withdrawal of this power from the president would prevent a repetition of legislation by these executive decrees and would ease the international situation.

To Motor East
L. W. Bregman and William Zottmann will leave next week on a motor trip to New York and Atlantic City.

CALL LABOR PARTY
PLANNED ALL "BOSS" YOUNGSTOWN, O., August 28.—Statements made by union leaders at a meeting of the labor congress last night that the plan for a new labor party is "boosh" led to a meeting of action on the question of establishing a branch of the party here.

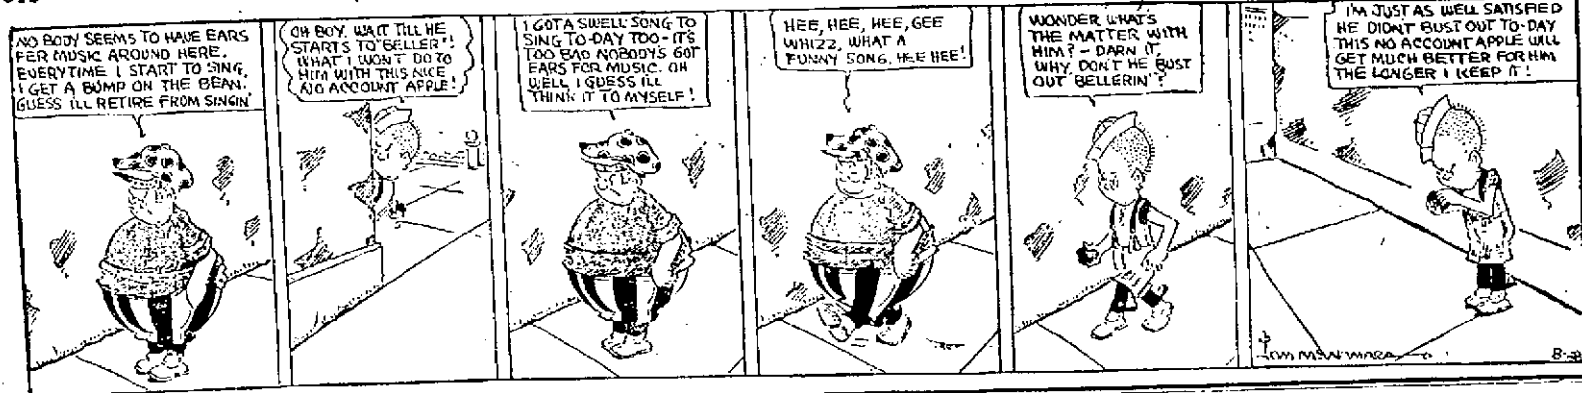

A later meeting of the congress will decide whether the various unions shall be asked to vote on the question.

BRITISH ARE EVACUATING ARMENIA
PARIS, August 28.—(By the Associated Press)—British troops began leaving the Caucasus region on August 15 and will all be out of districts where they have been protecting Armenians before September 15, David Schellfina, head of the petroleum bureau of the department of industry, commerce and labor, have been for the purpose of bringing back into line the Mexican congress and members of the supreme court, who, it is indicated, are somewhat out of step with the Carranza regime.

While at the British capital, he interviewed Viscount Peel, under secretary of war, who told him it was impossible for the British to retain troops in Armenia unless the United States should give assurance she would not permit any actual partition of the country takes place. He says if this is not done, there will be no British troops in Armenia.

"For humane reasons," he said, "the United States should accept the case for all Turkey."

OUTFIT THE BOYS AT LEHMAN'S

CLOTHING DEPT.,
2ND. FLOOR

Hosiery, One of The Neatness of School Wear

Neatness is a requisite for a good education, for instance they cannot express why they enter into the spirit of school work with a greater zest and more pep when they are suitably attired in spic and span new things. But the reason is psychological, when the body is attired in newness the child feels mentally at ease, feels that he or she has a clean start, and that there are no hindering obstacles. Consider yourself, for instance, how much better one feels in clean linen, a suit fresh from the pressers, lately polished shoes, the work seems to go easier, the wheels of energy seem to run smoother, without that mental friction that comes with knowing that your appearance is not the best, and so the child. Before school opens, reoutfit the child for his or her sake.

Steel Plant Wins Pennant In The Indus. Times.

Solvay Aggregation Beaten In Final Game

TRADES P. W. L. Pct.
Steel Plant 20 14 8 .500
Solvay 20 12 8 .500

With 10,000 eyes looking on and 30,000 hands clapping, augmented by voices from 5,000 throats, these games representing the Whitaker-Glasser Co., and playing under the name of Steel Plant, copped the pennant in the Industrial League, last evening, when they landed the Solvays a 3 to 2 defeat, bringing the classy league to a close. The Steel men, playing the close up to the hill and taking advantage of practically every opportunity offered them, came out victorious, causing their thousands of admirers to kick up their heels and drink deep from the cup of joy, while Manager Earl Clark and his heroes did the war dance in front of their bench, with their star hunter, Carl Whitlatch, the chief receiver of longways and slaps on the back that would jar loose the vertebrae of a much sturdier man than he. For Mr. Whitlatch came through on the hit and again demonstrated that he had the number of the sluggers in the Solvay line-up. Had the quiet fellow let up for a second, he would have lost his game. Knowing this he kept working on all cylinders and brought the machine in the garage without the slightest scratch. Given wonderful assistance by his backers, the tall lad from the Rome Beauty apple orchards of Lawrence, saw to it that the pitching end of the game was attended to according to the book and that is why the great army of men employed at the Whitaker-Glasser Company, went about their work today and last night with happy hearts and with a few more shudders jingling in their veins.

On the other hand the Solvays were not able to arise to the opportunities presented them. They caved in behind the great pitching of "Doc" Baumman, who trailed one of the best games of his honorable career and a game that would have been a winner nine times out of ten. The breaks in the game went against him—but there always go to a winner and there is nothing in that statement that is new—its fate always, and always fate. Winners override such things as breaks and that is why they win. The Solvay men are fellows who never give up, and to win the pennant after it looked as though they were hopelessly out of the running, is only a further testimonial to their grit and courage and high-minded determination. The Solvay infield, as has been the case on several occasions, cracked when it hurt like fury, while some weird work on the base paths cost them all the chance they had to win. Cooper on second and Frizzell at short, slipped up on at least a couple of occasions, and spilled the beans right then and there. All that is necessary for the Steel men is a change and they hop onto it like a cat on a mouse. Their knack of seeing an opening is what wins for them, and now they get a grip they don't let go. One of the real heroes of the occasion was Catcher Charles Stillwell. He not only caught a brilliant game, but scored a highly important run with a safe shot to right and nipped Valodin off third base in the opening inning when it looked as though the Solvays were going to sew up the game with a wooden string. That break gave the Steel men all the encouragement in the world and decided the issue right then and there. Had Valodin played a little closer to shore, there would most likely have been a different result to this write up. But that is where the Steel men shine—taking advantage of an opening. Stillwell again demonstrated that he is some catcher when he leaped out the hard working Dahlen, who tried to steal in the last in-

ing. He had slugged to center, scoring James and with Cooper up thought to swipe second, so as to be in a position to score. He went down to second like a bird but Stillwell had the ball there in plenty of time and Stillwell ended the game right then and there and kept the ball as a souvenir of the occasion.

It was a great game at that, and the score demonstrated the two teams were pretty evenly matched. The Steel men won because they played a better defensive game, for they were on-bite 5 to 4 which ought to give their opponents the edge. The Solvays have the habit of making their misplays in a crisis, while the Steelmen slip up when it don't count for as much. Byron Prediger saved the game for the Steelmen when he nabbed a long twisting skyscraper with a couple of men on the base paths and two out. He took the ball in one hand, making a play that could not be excelled in the big show—there in the pinch—that's what was. And while bouquets are being passed around it is absolutely necessary that particular reference be paid to "Juni" Evans at third. This fiddle buck, who is as game as a cat, came to bat in the first inning with a runner on the sacks and he delivered a mighty double that gave the Steelmen their first run. And Evans followed home soon when Mr. Haupt smacked a single to short. The Steelmen were off to a lead and they never relinquished that advantage.

And the closing of the season was the climax of the terrific struggle. Everywhere people stood and sat—the field was lined with humanity, and the players were spurred on to their best endeavors. The plunk of the ball, the thud of the bat, the roar of the crowd, the wisdom of organizing the league, which no doubt is one of the finest organizations of its kind in the entire country. Those who fathered the thought are to be congratulated upon their foresight and they have the heartiest thanks of Portsmouth fans.

The best of order was maintained—the best of decorum was manifested; everywhere, thanks to Homer Arthur and his small company of blue coats from the big steel mill. Every thing was attended to the occasion. The evening was made to order so far as weather conditions were concerned. The grounds were in tip-top shape and everything on the menu was enjoyed. From soap to nuts. Business Manager Stanton Hopkins, Sr., of the Steel Plant, was as gay as a big sunflower. He never did give up—even when the Steelmen were down in the race. "Hoppy" kept insisting the team could come through. He was ever on the job and stands as high in the estimation of the players who insist he looked after their interests in the inner council of the directorship with firmness and dispatch. "Hoppy" will grace the festive banquet with his presence and all is well.

The Solvays made a determined attack in the opening inning, but succeeded in making but one run when it looked as though they might score a dozen. Valodin walked on four wide ones and Baumman laid down such a perfect sacrifice that he beat it out and took second when Whitlatch made a bad loss to first. With men on third

REDS ARE APPROACHING

NUMBER 140

The Reds are approaching a crisis in their struggle for the National League championship, for much, even more than the fans really imagine, depends upon the outcome of the two-game series with the Pirates, the four contests with Chicago and four with St. Louis, play with the Pirates, the Cubs and Chicago.

CLERK'S LEAGUE TO CLOSE

Giants Gain Half Game

The Giants gained half a game on games and lost 34, giving them a percentage of .504.

New York won 70 games and lost 66 giving them its percentage of .515. In the American League the White Sox won and increased their lead over Detroit, who led in Cleveland.

CHANCE IS THROUGH WITH THE GAME

NEW YORK, Aug. 28.—Frank Leroy Red Sox and come back into the big Chance, one time "Fearless Leader" of Jolins. Chance says he has quit baseball for good and that nothing will tempt him to buy the Boston orange farm in California.

Prof. Watts Real Sport

COLUMBUS, Aug. 28.—James Watts, professor of boxing, who used to battle in Columbus over a decade ago and who has been teaching the many art in Pittsburgh of late, is a Columbus visitor, having decided to come here in a hurry Monday afternoon.

"I looked down Smithfield street in Pittsburgh yesterday," said the professor, "and decided that this would be a fine time to call on friends in Columbus and take in the Ohio State fair."

James wears a high hat and carries a cane. That sort of apparel is fly suited to a street car riot scene so he was quite right in his reasoning.

Watts was formerly located here.

PULLING FOR REDS AND TIGERS

Scout Billy Doyle left Wednesday on a trip through the East. He is pulling for Detroit to win the flag in the American League as he is scouting for this team. He says the Reds have the National League pennant all sewed up. We hope so, Billy.

Machine Effective On Defense And Attack

In the 18 games the Reds won in the East they made 56 runs, 170 hits and 21 errors. Their opponents got 8 runs, 125 hits and 25 errors, showing that Moran's machine is the most effective lineup of them all, both on the attack and the defense.

MAY MOVE ST. LOUIS TEAM TO MILWAUKEE

NEW YORK, Aug. 28.—There is a considerable talk in the East relative to the possible transfer of the St. Louis Cardinals to Milwaukee. The idea meets with approval here, as St. Louis is wholly an American age.

League city. The Cardinals are, unfortunately dead as an attraction there, Milwaukee has the population to support a big league club, and the proximity of that city to Chicago would mean a saving of great expenditures in miles.

MORAN REFUSES TO CLAIM PENNANT

At last, after the strife and turmoil of the Eastern trip, the great trip that won the flag, Pat Moran has a chance to get a little rest—to mingle with his family. Manager Pat is at Atlantic City and is splashing in the salty waves.

"I still refuse," says Manager Pat, "to claim say pennant before we win it. I will say this, however: On the day when the percentages show that we can not lose, I will be the first to claim it."

Ft. Worth Takes Lead

At Bridwell's Houston, Texas league team, has surrendered the leadership to Ft. Worth. Bridwell's team, however, is right on the heels of Ft. Worth and may soon overtake them.

Music To Garry's Ears

CHICAGO, Aug. 28.—Garry Herrmann has officially called the national convention into session at Chicago next Tuesday to lay plans for the world's series. The call must have been sweet music to Garry's ears.

Dempsey Is Idle

CHICAGO, Aug. 28.—Jack Dempsey became ineffective by the actors' strike here today.

The champion of fistiana was booked for a few weeks here at \$15,000 a week. But today it appeared he would have no place to put on his show.

May Book The Redlegs

BRONX, August 28.—The Cincinnati Reds have four open dates in September and an effort will be made to secure them for an exhibition game at Beechwood Park. Carl Rodgers, of Huntington telephoned yesterday to "Shocks" Taylor of the Smoke House to the effect that he was trying to get the Reds for a game at Huntington and suggesting that if Bronson also could secure them it would be an incentive for a short jump. The matter is now in the hands of Manager Burns of the local team.

OUR officials are trying to concentrate the attention of us, the plain people, upon the high cost of living. As to that, the situation is best summed up in the fact that it is the other way 'round, the cost of high living that vexes us.

So we conclude the attention of the plain people could better be directed to the high cost of officials.

This was borne staggeringly upon us in a business visit to the state capital that had to do with officials. We were amazed at their number and increase. The state house was crowded with them from cellar to dome, the annex was none the less surcharged, the Wyandotte building was overflowing with them, the Hartranft, the Stoneman and various other structures held far more than a quota. Why, one department, that we were in at its birth, just a half dozen years or so ago, and which then had less than twenty offices, has over three hundred now and the others have grown about in the same proportions, while many departments have been added, with a harmonious result, until state employees are as numerous as the sands of the sea, with yet more to come, as the last legislature piled and heaped up still other departments and commissions.

Small wonder that legislative appropriations have grown from about thirteen millions in 1913 to the verge of thirty millions in 1919.

If we leave out the industrial and agricultural boards, it is difficult to see where Ohio has gained any thing by the myriad inventions of administrative features.

Mind you too, plain people, the cost hasn't come in big pay, but in numbers. The first is to come and it will come, for Ohio is paying its laborers salaries and compensations disgracefully inadequate, compared to their talents and the cost of living, they as representatives of a great state, must bear.

In no sense do we reflect upon the service and worth of the state's officials. In intelligent comprehension of their duties, in diligent and faithful discharge of them, in frank and kindly dealing with those who come on public business, they have no superiors and it is to be doubted that they have any equals.

AS THE LINES CROSS

Yesterday's Times was an item that brought to our mind the thought of how curiously the lines of our lives cross. Years ago, when we concluded to venture into broader newspaper fields, we went to Chariton, Iowa. It was even then apparently a prosperous place and had otherwise an enticing look, as though it might be desirable to live in. It lost much of its attractiveness to us, when we saw a team of mules, drawing a light spring wagon, mired in the mud on the principal street and the whole section filled up with intolerable loneliness when a would be seller took us to the outskirts to show us a beautiful view, as he called it, the view being a flat country, without hill, a stone, tree, or creek, sloping down to the Mississippi and Missouri rivers a hundred miles away. We fled precipitately and never stopped going until we anchored safe and secure amid the mountains, through which runs the beautiful Ohio.

Now the item referred to states, that F. W. Meyers, who awhile back, was in the newspaper business in Portsmouth and deserved a better fortune than he met here, has located permanently in Chariton. We hope he finds there a pleasant home and a profitable business.

THE SOLID FOUNDATION

CHARLES H. Taylor, owner and editor of the Boston Globe, completed forty-six years of connection and service with the paper on August 17th. Though seventy-three years of age, Col. Taylor is as virile a force in the conduct of the Globe as he ever was and seems good for many years more.

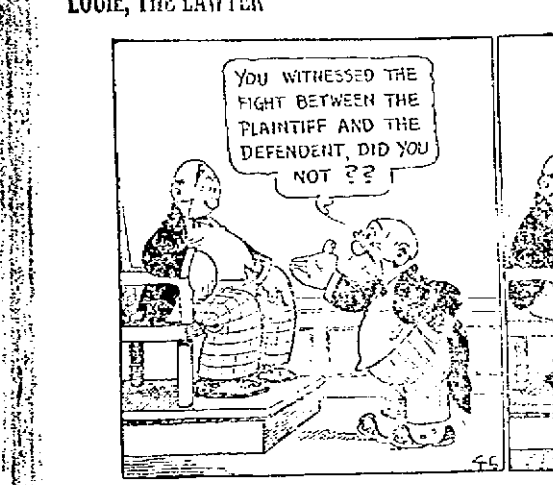

The Globe is notable for several things. It is the only Boston paper, with one exception that has been under one ownership for almost fifty years, and it is one of the very few big papers of the country owned almost entirely by a single individual. Possibly no other metropolitan paper stands so solid in the estimation of its readers and it is altogether unique that it has no ideals and no mission to present. The purpose of the owner has been to make it a family newspaper, being the first to get away from the supposition that papers should be made for men only. In this there was no profession whatsoever. Simply the task of making an honest, sober, dependable and excellent journal, dominated by common sense and decency, was relied upon.

The prosperity and influence of the Globe is sufficient proof of Col. Taylor's judgment and policy.

POLLY AND HER PALS

LOUIE, THE LAWYER

Some Scioto county people had, this week, business to transact with the state attorney general's office and bring back word that when they arrived they found Will Meyer, who is an assistant attorney general, had the matter fully in hand and gave them prompt and considerate attention, going quite out of his way to help them through with it. They also said Will has made good and is highly esteemed by the attorney general. There isn't a bit in that surprising to Portsmouth people. They know Will Meyer has unusual legal ability and that he adds thereto remarkable earnestness and a fine conscience that ever carries him to the doing of the right and proper thing and doing it well.

Remember this: What you do in honor for others is the rich field upon which pleasant memories seed and flower; what you do for yourself may be sowing the tares that choke and kill the joy of memory.

On the curbs they must more on at the gentle nodding of a night stick. These old men with rasbun shaven faces do not understand the New World mandate.

Their young ones have gone forth into the city and returned wearing strange checkered clothes and near silk shirts and talk a new language—a language of jazz, gold lust and pleasure hunts. So at night the old patriarchs slipped their gullets of wine and talked of the civilization of Rebekah, the Fox and other native lands. But no more.

WHO'S WHO

CONGRESSMAN BEE Every one of course has heard of the congressional bee, but did you know that there really is such an animal—or should one say bug? His name is Carlos Bee and he is a representative from the state of Texas. The congressional bee stung Carlos Bee at a Fourth of July barbecue down near San Antonio six years ago. Mr. Bee was the orator of the occasion and he dwelt long and eloquently upon the burning issues of the day. He caused the eagle to scream as he crapped himself in the gorgeous folds of the starry banner and when he got back to town Leo Sack, who was then carrying state politics for the Fort Worth Star-Telegram, remarked to Mr. Bee that his oration sounded like an announcement of his candidature for a seat in congress. The Texas Bee replied a fire at the congressmen and finally said that Mr. Sack could not any construction upon his oratorical effort that he wanted.

Mr. Sack's interpretation of Mr. Bee's oratory flared in great head-times the next morning on the front pages of the Star-Telegram and the story was telegraphed all over the state, for the Fourth of July is always a dull day for news and editors grasp at straws.

Nothing more happened until last summer when President Wilson wrote the political diary of Representative Shelden in the form of a resume of his war record, and then Mr. Bee, who is a brother-in-law of Postmaster Burleson, took the congressional bee from under his bonnet and the next thing he knew he was elected to the house.

A few weeks ago Representative Bee suffered a slight operation which confined him to the hospital for a week or more. In order that he might keep his fingers on the public pulse during his enforced retirement, he directed that his home paper, the San Antonio Light, should be sent to the hospital. It came for a few days and then stopped. He telephoned his secretary to find out what the matter was. Pretty soon word came back from Harry Beach, the editor of the paper: "Don't know. We mail the paper to you every day. You might ask your brother-in-law."

He knows the art value of gold stamping and tooling of marked lining papers, and everything pertaining to the book beautiful. He is going to keep alive in little old New York the art that has come down through the ages, but which has been sadly commercialized. Also the Marquette Theatre is being revived. Reno's Theatre, of Greenwich Village, is to have a marionette theatre in the doorway of the Poetry Bookshop on West Eighth street. Tony Sarg, who did much to popularize this unusual art, has gone on tour with his marionettes after playing a year in Gotham.

REVOLUTION IN MONTENEGRO; WHOLE COUNTRY IS IN ARMS

SERBS TRYING TO STOP REVOLT

LONDON, Aug. 28.—Fighting has broken out everywhere in Montenegro and the whole country is in a state of revolution, according to news received here. The Serbians are using strong measures in an attempt to suppress the uprising.

"We seem to be in for a recrudescence of the Balkan trouble," says a statement made to the Associated Press today from an authoritative source.

The Montenegrins have cut the railway between Virpazar and Antivari, on the coast.

The Serbians are receiving reinforcements, but are not meeting with success in their efforts to put down the revolutionary movement, according to the advices, which represent the Montenegrin national spirit as thoroughly aroused and the animosity of the people against the Serbians increasing.

Wilson To Start Trip Wednesday

WASHINGTON, Aug. 28.—President Wilson will leave Washington next Wednesday on his speech-making tour in the interest of the peace treaty, and will deliver his first address in Columbus, Ohio, next Thursday, probably in the evening.

Cincinnati is not included in the itinerary, but Secretary Tumulty announced the president would speak at Indianapolis.

Accompanying the president will be Mrs. Wilson, Admiral Cary T. Grayson, Secretary Tumulty and a corps of secretaries and stenographers.

WEATHER

OHIO.—Fair in north; local showers and thunder storms probably in south tonight and Friday. Not much change in temperature.

George M. Cohan, formerly an actor but more lately a manager, has organized a new union of actors which will fight the Actors' Equity association, now on strike in New York. Cohan's union is opposed to joining the American Federation of Labor. Among the

members of his organization are the old timers David Warfield and Amelia Bingham and such famous stage beauties of the younger generation as Fay Bainter, Leona Ulrich and Justine Johnston.

PROGRESS IN THE FIGHT ON HIGH PRICES

WASHINGTON, Aug. 28.—Belief of definite progress in the government's campaign against the high cost of living is expressed by Attorney General Palmer in announcing that the department of justice is meeting with success in obtaining from shoe manufacturers promises as to fixing a maximum price on shoes.

With reports to the department indicating that a slight downward trend in prices already has set in, although it is not yet sufficient to be reflected in spot purchases on the retail market, Mr. Palmer declared that given a fair chance efforts of the government to squeeze the inflation out of prices soon will show substantial results. Expressing satisfaction with the success so far attained, the attorney general said he believed cumulative results will follow enactment by congress or amendments to the food control law providing penalties for profiteers and hoarders.

Efforts of retail merchants to stimulate business by predicting higher prices next season were condemned by Mr. Palmer, who warned the public not to be stampeded by this propaganda into a "hoarding hysteria."

FACES CHARGE OF MURDER

TOLEDO, O., Aug. 28.—Charged with the murder of a grocer at Lorain, Indiana, last Christmas eve, Walter C. Baker was returned to that city today. He is said to have been one of three men who entered the grocery store of Earl Clark, with robbery as the motive, and shot and killed the proprietor. Baker, here, says Baker also is wanted for an alleged attempt to bank robbery at Lockport, Illinois. Baker's hands of a few months accompanied him to Lorain.

ENTRANTS IN AIR DERBY ARE SAFE

MT. CLEMENS, MICH., Aug. 28.—Lieutenant H. E. Slater and Sergeant (Lieutenant) believed to have been lost in Lake Ontario, or to have been blown out of their course and landed in some out-of-the-way region during their flight from Buffalo to Toronto in the international aerial derby, New York to Toronto and return yesterday, are safe at Selfridge field, here. Lieutenant Thomas Gill, commandant, announced this morning. Lieutenant Gill reported that Slater's machine developed engine trouble, causing him to head for his home field instead of continuing the flight to Toronto. Slater was in wireless communication with Selfridge field throughout his flight after leaving Buffalo, it was said.

PRETORIA, UNION OF SOUTH AFRICA, August 28.—General Louis Botha, premier and minister of agriculture of the Union of South Africa, died suddenly early this morning, following an attack of influenza.

TOLEDO FIRM SELLS

TOLEDO, O., Aug. 28.—Sale of the Motor Fuel and Oil Company of Toledo, to the Midland Oil Products Company, of Minneapolis, for \$100,000, was announced today by officials of the local company. The new company plans to expand the business here to an extent that will make Toledo an important center for the manufacture of oil and oil products.

LENINE SUES FOR PEACE

COPENHAGEN, Aug. 28.—Nicolai Lenin, the Russian Bolshevik premier, has sent a delegation to Rishinev to negotiate peace with Rumania, according to a report received from Budapest today.

POISONED BY COFFEE

CHICAGO, Aug. 28.—More than 30 persons in a downtown lunch room were poisoned last night after drinking coffee, and it was said several of the afflicted were in a serious condition. Samples of the coffee have been turned over to the health department for analysis.

DRIVE ON LIQUOR DEALERS

WASHINGTON, Aug. 28.—Liquor dealers who have been violating the year time prohibition law secure in the belief that they were safe because department of justice agents were too busy in the high cost of living investigation to give attention to them, are due for a rude awakening, according to attorney General Palmer. Recent arrests in New York and other cities, Mr. Palmer said were only the forerunner of what is to come and those who believe prohibition laws can be evaded will be shown differently.

STRIKERS ORDERED TO WORK

SAN FRANCISCO, CAL., Aug. 28.—Hopes for early improvement in the strike situation, which virtually has paralyzed rail transportation in southern and central California, were expressed today.

All the strikers had before them orders from their international officers to return to work, as well as a statement from Walter H. Hines, director general of railroads, that this order was "final" and that the government was "taking steps" to operate the roads if the strikers did not return to their posts.

At Oakland and Sacramento, where brief strikes of yard employees had paralyzed traffic, the men had returned to work and facilities were assuming something of a normal aspect.

WHO WANTS A WARSHIP? HERE'S CHANCE TO BUY ONE

WASHINGTON, Aug. 28.—More than 100 naval vessels of widely diversified types, including seven old type gunboats, several converted yachts, one monitor, a tug and about 90 standardized submarine chasers, will be offered for sale to the highest bidder in the near future, the navy department today announced. Among the vessels to be sold are several historic ships, including the gunboats Essex, Yantic, Gopher, Sanfoal and Princeton, the Isle de Luzon and Don Juan de Austria, the last two Spanish-American war prizes; the Monitor Amphitrite and the converted yacht Eagle and Waban.

BANQUET GUESTS IN THE SHADOWS

ALLIANCE, O., Aug. 28.—Mrs. Willis F. Sanford, the most seriously sick of those who survived the dinner at Lakeside Country Club the other night, was battling hard for life this morning, with her condition exceedingly grave. Her physicians said she had undergone no change during the night.

It became known early today, that the vital organs of the negro waiter and the dead end of the Country Club had not yet reached Mr. John G. Spencer, of Western Reserve Medical School, Cleveland, but would be taken to him today by Coroner McQuate, who, it is understood, will personally deliver them to the client.

Mrs. Helen Sebring Gahrts, dead hostess of the ill-fated dinner, was to be buried this afternoon from her home in Sebring.

HOPE TO SETTLE STRIKE

PITTSBURGH, PA., Aug. 28.—That there is little possibility of a resumption of car service today, was indicated in a statement issued this morning by the receivers of the Pittsburgh Railway Company, saying that in view of negotiations looking toward the resumption of service by regular employees, it was not deemed advisable to start operations.

THE WISHING PLANE

BY WILLIS WINTER

I know you're wondering ever since yesterday's story whether the airplane landed safely, as Captain Brave hoped it would, on the little level spot.

Well, it did. When Captain Brave landed the airplane on the little level spot, it went off the engine of the airplane and it went off the engine of the airplane and it went off the engine of the airplane.

Lamar hurried down the mountain side until he could call to Ralph and tell him to lead his men up the mountain to the airplane. The children thought it would be only a few minutes until Ralph and his men arrived and so they were surprised when Lamar came back and said:

"If you folks can find a rope of some kind in the airplane I'll take you to a place where you can see the climbers' foot of the time. It'll be in an hour or more before they get here."

Captain Brave helped Jack hunt about the airplane for a rope and finally they found one—just about the time Jack had given up all hopes.

Lamar had given up all hopes, though, that next day Captain Brave confessed that he knew where the piece of rope was all along but wanted to play a joke on Jack by letting him hunt for it.

Lamar fled out of the rope around Jack's waist and the other end finally about Jack's waist and, taking a firm hold of the rope in the center, started off down the mountainside with them.

Jack and Jane thought it was great sport, to be tied up like they were.

"This is just the way we used to play horse back in Lake Hollow town," said Jane. Just then Jack slipped on the icy ground and ran down very hard. "I guess it wasn't quite as slippery back home, though," said Lamar, laughing as Jack scrambled to his feet.

Lamar guided the children safely to the edge of a great cliff and, holding tight to the rope, led them watch the men scrambled up the mountainside to ward them and the airplane.

The ghetto obeys the law, and while they serve soft drinks, the wine they love and drink all their life is

The old whitebeards, who lift up their faces to God several times a day, cannot understand such strange law-breaking and so they sit on their front stoops—leaves, Amentians, No-politans and a half dozen others—wearing their picturesque skull caps and pulling at their pipe and margarine.

The ghetto is a land of fascinating squalor. It is the only place where poverty at times is made interesting. In a barber-shop one hears an Italian tenor lifting his voice in grand opera. Over under Manhattan Bridge at night is the market. The ghetto streams through it in droves. Old women cry out their wares in a half

CONGRESSMAN BEE

Every one is bound to have heard of the congressional bee, but did you know that there really is such a thing? It is a bee, not a sting, and it is a representative from the state of Texas. The congressional bee sting Carlos Lee at a Fourth of July barbecue given near San Antonio six years ago.

Nothing more happened until last summer when Governor Wilson wrote the political director of Representative Stetson in the form of a resume of his war record, and then Mr. Bee, who is a brother-in-law of Postmaster Burleson, took the congressional bee from under his bunnet and the next thing he knew he was elected to the house.

A few weeks ago Representative Bee suffered a slight operation which confined him to the hospital for a week or more. In order that he might keep his fingers on the public during his enforced retirement, he directed that his home paper, the San Antonio Light, should be sent to the hospital. It came for a few days and then stopped. He telephoned his secretary to find out what the matter was. Pretty soon word came back from Henry Beach, the editor of the paper, "Bee, know. We want the paper to you every day. You might ask your brother-in-law."

Carlos Bee, who was then covering state politics for the Fort Worth Star-Telegram, remarked to Mr. Bee that his oration sounded like an announcement of his candidature for a seat in congress. The Texas Bee finally said that Mr. Sack could put any construction upon his oratorical effort that he wanted to.

Mr. Sack's interpretation of Mr. Bee's oratory thrust in great heat. His next morning in the front page of the Star-Telegram and the story was telegraphed all over the state for the Fourth of July. It always a dull day for news and editors grasp at straws.

A GENTLE REMINDER!

York is a thing of other days. He passed with the horse car and the cellist collar. The office boy of the present day is a diplomat. He is picked for his looks, smartness and politeness. He must meet people and people of importance, and use tact. He has a dignity of bearing which approaches solemnity, a perfectly clean request so far as dying grandmothers in the basement season are concerned, and a majestic scorn for the female of the species that has passed him even unto his present ripe age of 17 or 18.

I like the idea Ed Wyman, the actor, has for a new hotel. He is going to call it the Hotel Bohemian. It will have 5000 rooms and one bath.

Bill Phelan, the Australian craftsman, is in town. Bill is a bookbinder—a real artist. He knows the art value of gold stamping and tooling, of marbled lining papers, and everything pertaining to the book beautiful. He is going to keep alive in Little Old New York the art that has come down through the ages, but which has been sadly commercialized. Also the Marzette Theatre is being revived. Marzette, of Greenwich Village, is to have a masonic theatre in the doorway of the Poetry Bookshop on West Eighth street. Tony Sarg, who did much to popularize this unusual art, has gone on tour with his marionettes after playing a year in Gotham.
